

GET OUT OF THE WEEDS

WEEK ONE

Reach Out:

Spring is a great time to meet your neighbors. Ask everyone on your block if they want to rent an aerator together and then let everyone use it. Makes the cost super low and everyone gets involved.

Grow Deep:

1. Why do you think we so easily excuse ourselves from God telling us to not fear versus other areas of sin like lying?
2. What fears have robbed you of the passion God has placed in you?
3. How does fear trick you into thinking you can control the future?
4. How can the love of God towards you change the way fear shows up in your life?
5. What is contributing to your fear that needs to change?
6. What does God want to use to add faith and trust in Him right now?

Partner with Families:

Sometimes fear rules our families more than we recognize at first glance. Decisions are then made in that fear rather than in trust. As a family, list some fears that are present for the family and for the individuals in the household. As you look at the list, which of these fears are keeping you from the abundant life Jesus wants for you? Spend the week asking Jesus for courage to live without that fear.
