

ONLINE EXPERIENCE FAQ

WHY THE CHANGES

We know it feels a little intimidating to check out church or even watch it online. And maybe parts of the service don't feel like they're created for you to experience online.

So we've created a service that was designed for you.

- When you tune in to our Youtube Channel, you'll get a chance to hear a song that you can listen to. Maybe church music is not a totally normal thing for you -- so this gives you a chance to see what it's like.
- We'll have hosts that will interact with you in real time. As you comment, they're going to chat with you. It's a great way to check out how much we value community. We want to talk with you.
- Next, you'll hear a talk about what it means to incorporate faith and the way of Jesus into your life.
- After the talk, those same hosts will be back to share their perspective and ask questions where you can offer your thoughts as well.

We hope that God uses this in your life to make it a little bit easier to connect with a church and to make a real difference in your life.
